Audio system for household wares

Taguchi, a professional audio master in Japan, introduces premium personal sound system for PC & potable audio, "Supper".

Supper would bring you to a music arena or an open air concert site experience in your favorite personal space like bed room, dining, or lounge, by Taguchi audio technology and craftsmanship for premium concert halls to musical theaters. Jin Kuramoto, young talent product designer well known ICT life style and affordance, designed Supper as stylish "table wares" for cozy sound "dining" experiences.
